Dear TITLE SURNAME

Re: The UK-ROX Study

You may remember when you were in the intensive care unit at NAME OF HOSPITAL, in RECRUITMENT MONTH, that you were involved in a research study comparing different targets for oxygen treatment, called UK-ROX. A newsletter is enclosed which contains further information about the UK-ROX study.

As part of the study, we contact some participants, including you, after three months, to find out how they are following their stay in the intensive care unit. We would be very grateful if you would complete the enclosed questionnaire. A stamped, addressed envelope is provided for ease of return.

UK-ROX is coordinated by the Intensive Care National Audit & Research Centre (ICNARC) and is taking place in around 100 NHS hospitals. If you have any questions, or would like help completing the questionnaire, then please contact the UK-ROX team at ICNARC (the contact details are above).

If you **do not wish** to fill in the questionnaire, then please tick the box on the front of the questionnaire and return it to us using the stamped, addressed envelope provided. If you do not respond to the questionnaire, you will still continue to be included in the study.

Thank you so very much for your time.

Yours sincerely

Professor Daniel Martin OBE
Chief Investigators, UK-ROX Study

Mr Paul Mouncey
