

This patient is participating in the T4P study and has been randomised to:

Threshold for platelets for low bleeding risk procedures

Less than $10 \times 10^9 / L$

This patient is participating in the T4P study and has been randomised to:

Threshold for platelets for low bleeding risk procedures

Less than $20 \times 10^9 / L$

This patient is participating in the T4P study and has been randomised to:

Threshold for platelets for low bleeding risk procedures

Less than $30 \times 10^9 / L$

This patient is participating in the T4P study and has been randomised to:

Threshold for platelets for low bleeding risk procedures

Less than $40 \times 10^9 / L$

This patient is participating in the T4P study and has been randomised to:

Threshold for platelets for low bleeding risk procedures

Less than $50 \times 10^9/L$

Threshold for Platelets Study

Is this patient eligible?

Platelets less than 50?
